

* Login Pgc

A hand-drawn sketch of a login page. At the top center is a square placeholder for a logo, marked with a large 'X' and the word 'logo'. Below the logo are two horizontal input fields: the first is labeled 'Email' and the second is labeled 'Password'. At the bottom center is a rectangular button labeled 'LOGIN'.

* Admin ONLY

A hand-drawn sketch of an admin-only page. On the left is a square placeholder for a profile picture (Pfp), marked with a large 'X'. To the right of the Pfp are three input fields: 'Email', 'F. Name', and 'L. Name'. Below these are three more input fields: 'DD', 'Month', and 'YYYY'. At the bottom center is a rectangular button labeled 'REGISTER'.

[* Popup style]

* First time login

A hand-drawn sketch of a modal for first-time login. The modal contains two input fields: 'New Password' and 'Re-enter New Password'. Below the second field is a small text label '* Must TMC'. At the bottom center is a rectangular button labeled 'CONTINUE'. An arrow points from the word 'modal' to the modal box.

[* Modal style]

* Menu Screen

A hand-drawn sketch of a menu screen. On the left is a square placeholder for a profile picture (Pfp), marked with a large 'X'. Below the Pfp is the text 'Albert Tm Role'. At the bottom left are two buttons: 'Edit Profile Information' and 'LOG OUT'. On the right side are three large rectangular buttons labeled 'Title 1', 'Title 2', and 'Title 3'.

When click → modal opens

* Table View

A hand-drawn sketch of a table view. At the top are four buttons: 'Filter', 'Search', 'Export All', and '+ Add'. Below these is a table with 5 columns and 6 rows. The first column contains checkboxes. The second column is labeled 'Export'. The third column is labeled 'EDIT'. The fourth column is labeled 'DELETE'. The fifth column is labeled 'Control'. Below the table is a pagination bar with the text 'Page X of Y' and two arrows. Annotations include: 'Edit modal opens' pointing to the 'EDIT' column, 'on click, modal opens' pointing to the '+ Add' button, and 'Are you sure modal opens' pointing to the 'DELETE' column.

* Extra function

- password encryption
- filtering
- search
- set password on first login
- using json (java jackson)

* in code, can select & hide certain controls

L-2FA, Email OTP
